**APPLICANT'S COMMENTS ON EXAMINER'S  
STATEMENT OF REASONS FOR ALLOWANCE**

In the Examiner's Statement of Reasons for Allowance, the Examiner describes certain concepts that the Examiner considers not taught by the prior art of record. The Examiner has focused only on concepts in the independent claims that the Examiner believes provide patentability. The Applicant believes there are other features recited in the claims that, in combination with these concepts, may provide additional reasons for patentability.

The Examiner indicates that the dependent claims are patentable because they further limit their parent claims. The Applicant believes the dependent claims recite patentable features in their own right.

Respectfully submitted,

MARGER JOHNSON & McCOLLOM, P.C.
